Believing the College Dream

Friday, November 14, 2014
8:30 a.m. - 3:00 p.m.
Sheraton Bradley International Airport Hotel, Windsor Locks

This training on the Believing the College Dream curriculum guide supports:
• teachers
• school counselors
• afterschool program staff and
• members of community organizations
in their work to increase the expectations of attending college by prospective low-income, first-generation college students in Grades 4-8.

Believing the College Dream was developed by the University of California, Berkeley with funding from the Educational Credit Management Corporation (ECMC) Foundation.

No Fee!
Breakfast & Lunch included!

Believing the College Dream is an early intervention, dropout prevention program designed to help bridge wide disparities by income, race, and ethnicity in access to and success in higher education. It also gives families and communities the tools, information, and college-bound attitude they need to support their children.

Participants will learn innovative applications for implementing the Believing the College Dream curricula; experiential, game-based techniques for teaching fundamentals; and how to incorporate the curricula into existing programs.

The session includes:
• a full day of highly interactive workshops
• presentations by experts in education from institutions across the country
• printed and digital editions of the curricula for each participant
